

Dr. Eric Walsh - Fired for Sermons

Social Media Guide

Thank you for joining the movement and supporting Dr. Walsh!

Background

Dr. Eric Walsh was hired by the State of Georgia to be one of their District Health Directors. After government officials found out Dr. Walsh served as a lay minister in his church on the weekends, they obtained copies of his sermons, divided them up, reviewed them, and then fired him over his beliefs. First Liberty filed a lawsuit on behalf of Dr. Walsh, alleging that the State of Georgia engaged in religious discrimination by firing Dr. Walsh because of his beliefs.

On September 28, in the process of building their legal case against Walsh, the State of Georgia served a Request for Production of Documents on Walsh, which requires Walsh to surrender copies of his sermon notes and transcripts. The request carries the same force of law as a subpoena. First Liberty believes that the government's action in ordering a pastor to hand over copies of all of his sermon notes and transcripts, without limitation, is excessive government overreach and a gross intrusion upon the sanctity of the church. They call upon the State of Georgia to cease its hostility toward Dr. Walsh and people of faith across the state.
