Thanks so much for the update. I appreciate it.

I am going to go ahead and pass along the legal information to Paddie's office. Please keep me informed if you learn that ADM will be calling her.

Colt,

I know of nothing that would change our position that it is on a road that cannot have signage. If Mr. Barton cut some deal, I am unaware of it, but I would think that I would know. So, unless Wendy says something else, no permit is possible.

I would really like Laura and Veronica to be part of our conversations about this particular sign and have cc'd them.

Cheers,

Ronald M. Johnson
